RECOMMEND IT IN EVERY WAY.

SOME ODD SCHOOLS.

"French" schools were the subject recently of an article in a provincial paper, and we are confident that few of our readers will have heard of some of these very odd educational establishments. It appears that in Belgium before qualifying for a post as sexton one must pass an examination in a school of grave diggers, while in Paris there is a school for judges. Where make-believe trials are carried out in detail before lawyers of repute.

Russia has a school for policemen, which it is believed, the pet amb-

tion of the young and aspiring burglar to join. In an adjoining museum "the pupils make themselves familiar with jimnies, drills, chisels and other tools used by professional thieves."

Still more ambiguous are the merits of the course of instruction given in the Casino at Monte Carlo. Here is evolved the professional croupier. Some six months training is all that is needed to produce a finished specimen of these useful articles, which are turned out at the rate of nearly 100 a year.—University Correspondent.

thia, Don H. Keeble, J. H. Mahoney, Ralph C. Ely, Chas. Blanchard, E. M. Winston, E. N. Burch, Felipe Lucero, Camilo Sanchez, Chas. D. Miller, Geo. E. Morrison, T. J. Mohrino, Chas. M. DeBumond, J. S. McTavish, John Becker and J. G. Aragon.

Arizona. — Fred Nelson, Gustav Becker, David Babbitt, M. I. Powers, W. L. Adamson, Dr. N. C. Bledsoe, Chas. Solomon, W. T. Webb, Dell M. Potter, John R. Hampton, L. E. Wightman, G. H. Smalley, O. D. M. Cadolis, E. P. Thompson, G. P. Burkhardt, C. F. Almsworth, W. H. Clark, Barnett Stiles, Frank H. Hereford, A. D. Plummer, G. M. Brockway, C. T. Powell, Bracey Curtis, E. Titcomb, John J. Keegan, J. F. Heetman, Reese M. Ling, D. M. Clark, J. A. Ketcherside, R. A. McPherson.

The remainder of the morning session was devoted to the adoption of rules for the government of the organization, devising its official roster and committee list, appointing a committee on permanent organization and chartering the organization the Ocean to Ocean Transcontinental Highway association.

On reassembling in the afternoon the committee on organization submitted its report which filled the following offices and committees, and which report was adopted without dissent:

President—John S. Mitchell, of Los Angeles.
Secretary—J. S. Conwell, of Los Angeles.
Treasurer—A. W. Ballard, of Phoenix.

Vice presidents—For California: A. G. Spaulding, of San Diego; for New Mexico, D. B. Sellers, of Albuquerque; for Arizona, Del M. Potter, of Clifton.

Executive committee—For California, Ed Boyd, of Imperial; W. H. Primeroy, of Ontario; W. B. Clancy, of Riverside; for Arizona, T. G. Norris, of Prescott; E. R. Urtle, of Douglas; Dr. Ketcherside, of Yuma; for New Mexico, C. N. Miller, of Santa Fe; Robert E. Ervin, of Santa Fe, and George Arnot, of Albuquerque.

Legislative committee—For California, F. A. Miller, of Riverside; F. W. Balfour, of Pomona; Stoddard Jess, of Los Angeles; Thomas Earley, of Pasadena; Rufus Choate, of San Diego. For Arizona, R. M. Ling, of Prescott; G. P. Ballard, of Phoenix; John Hampton, of Clifton; J. F. Hechtman, of Globe, and Dr. A. W. Esher, of New Mexico. E. N. Burch, of Raton; J. Y. Aragon, of Magdalena; John S. Clark, of Las Vegas; E. A. Cahoon, of Roswell; J. A. Mahoney, of Deming.

President Mitchell assumed the gavel and after delivering an enthusiastic speech thanking the gentlemen for the honor conferred and promising his own active service, asked for the pleasure of the meeting. Speeches followed on the subjects of federal aid in road building, the crossing of forest reserves, national monuments, etc., and a committee on resolutions was finally appointed to make a report on these matters and get something before the house for discussion. The committee was composed of Messrs Miller of New Mexico, Potter of Arizona, and Jackson of San Diego, and pending its report the convention fixed Santa Fe as the place for the meeting of the convention a year later.

The nomination of Santa Fe was made by Mr. Miller who said he did not ask for it so much as an honor from the convention as for a business reason. He believed the holding of the next meeting in Santa Fe would produce such an enthusiasm as could be created no other way and that all the influence of that sort possible should be secured for its effect further east.

R. M. Ling of Prescott seconded the nomination in a pleasing speech as did one of the California delegates and the vote was unanimous, followed by the thanks of Mr. Miller, responded to by President Mitchell, who took occasion to digress enough to say that he believed the government would help in building good roads and that at once, and that the pres-

ent effort was a good way to start the movement.

Pending the report of the committee on resolutions T. G. Norris was called upon to address the convention on what occurred at the meeting of the National Good Roads association which he recently attended. He was listened to with interest and when he had finished the resolution committee reported.

There were numerous resolutions and the reading of the first one developed the fact that there would be argument and division over it and probably over some others. It was finally decided to take up resolution No. 4 as there was no disagreement thereon. It was done and the resolution passed unanimously. It expressed the thanks of the convention to Governor Sloan to the people of Phoenix and to the press of the three states for courtesies and hospitality.

The reading of other resolutions developed such diversity of opinion it was decided not to discuss them until after the three state delegations had made recommendations as to the routing of the transcontinental highway across their respective territories. Efforts were made to go into caucus immediately but they were unavailing. The convention remained in session until its dinner hour had nearly arrived, when it was decided to order the caucuses and a report from them on assembling this morning at 9:30. The convention then took a recess for the day and reported in a body at the board of trade room where it was received as the guest of the city club.

WOOL DUTY MUST DROPS

(Continued from Page One)

vision begin at once. He characterizes the report as the most complete statement of the difficult and complicated subject ever presented to a legislative body.

Neither the president nor the board proposes definite rates of duty. Taft recommends that the proposed revision adhere to the policy of protection based upon the difference of the cost of production here and abroad.

The report of the tariff board points to two ways of changing the present system of levying duty upon the raw wool and the finished cloth. It would assess a duty on scrubbed wool, and not wool and grease combined, and suggests a graduated scale of ad valorem rate on the finished cloth.

The report is divided into two sections—raw wool and yarn and cloth. For the purposes of computation the board makes a suit of clothes retailing at \$23 and wholesaling at \$16.50.

HEAD WAS SCALY HAIR ALL CAME OUT

And Baby's Face Broke Out in Red Bumps. Spread on Hands and Arms. Got Worse All the Time.

Mother Says, "I Don't Think Anything Else Would Have Cured Him Except Cuticura."

"When my first baby was six months old he broke out on his head with little bumps. They would dry up and leave a scale. Then it would break out again and it spread all over his head. All the hair came out and his head was scaly all over. Then his face broke out all over in red bumps and kept spreading until it was on his hands and arms. I bought several boxes of ointment, gave him blood medicine, and had two doctors to treat him, but he got worse all the time. He had it about six months when a friend told me about Cuticura. I sent and got a bottle of Cuticura Resolvent, a cake of Cuticura Soap and a box of Cuticura Ointment. In three days after using them he began to improve. He began to take long naps and to stop scratching his head. After taking two bottles of Resolvent, two boxes of Ointment and three cakes of Soap he was sound and well, and never had any breaking out of any kind. His hair came out in little curls all over his head. I don't think anything else would have cured him except Cuticura."

"I have bought Cuticura Ointment and Soap several times since to use for cuts and sores and have never known them to fail to cure what I put them on. Cuticura Soap is the best that I have ever used for toilet purposes." (Signed) Mrs. F. E. Harmon, R. F. D. 2, Atoka, Tenn., Sept. 10, 1910.

Cuticura Soap and Ointment sold throughout the world. Send to Potter Drug & Chem. Corp., Dept. 103, Boston, for a liberal sample of each, post-free, with 22¢ box on the skin.

AMUSEMENTS

THE COLISEUM.

It's a good show. There are hundreds of worse ones on the road at 50, 75, and \$1.00. There is enough good comedy, clever acting and good monologue in the bill at the Coliseum this week to make it pleasing. Few better programs are offered at any playhouse for the price.

As a special Christmas day matinee

rolled a snowball to make a pillow. He thereupon rose and kicked it away, saying sternly, "No effeminacy, boys!"—London Chronicle.

Dustin Farnum says the politest man of his acquaintance is a New York broker. The broker owns a motor car, which he drives himself. He always carries a little painted sign in the tonneau of the car for the use in case of accident. "I asked him how he made use of the sign," said Mr. Farnum yesterday, "and he said that every time he ran over a person with the auto he hung the sign on the back of the machine. The sign reads, 'Please Excuse Me.'"

Texas railroads have been directed by the state railroad commission to file statements showing how much cotton was shipped to New Orleans during the past two years and at what rate to be used in the contest over a tariff giving the Crescent City a differential over Galveston.

And how such Spartan training of boys among the natives of northern Canada would have appealed to one of the Camerons of Lochiel. Sir Francis Galton records that, when bivouacking with his son in the snow, Cameron noticed that the lad had

Of this, the farmer received for the lion in the suit \$2.25, with profit of 65 cents; the manufacturer of the cloth receives \$4.75, profit 22 cents; the wholesaler \$16.50, profit \$2.18; the retailer \$23, profit \$6.50.

Part of the report is devoted to the wages and efficiency of the employees.

LIKE SPARTAN BOYS.

Canadian Youths Taught Endurance Through Exposure to Cold.

Whipping and exposure without clothes as a training in endurance of boys for the north Canadian native boys has curious points of resemblance to the training of the boys of ancient Sparta. They also were inured to cold by being made to go barefoot and to wear the same clothes summer and winter; and they also underwent whipping. Only, cold seems to have had nothing to do with the latter. The scourgings of Spartan boys before the altar of Artemis Orthia are supposed to have been a relic of human sacrifice (in some cases boys actually died under the lash). But they were undoubtedly utilized as training in, and a test of, hardihood—the boys competing to see who could endure most without a sound.

And how such Spartan training of boys among the natives of northern Canada would have appealed to one of the Camerons of Lochiel. Sir Francis Galton records that, when bivouacking with his son in the snow, Cameron noticed that the lad had
